FISH AND GAME ASS'N PICNIC AT THE RAVEN HATCHERY JULY 27

Plans have now been completed for the annual picnic of the Innisfail, Olds and Didsbury Fish and Game Associations, to be held at the Raven Fish Hatchery on Sunday, July 27th and it is expected that a large crowd will be present from all the towns and districts in the territory between Red Deer and Carstairs.

The picnic is open to the general public and anyone can attend. The afternoon will be devoted to various sport activities and suitable prizes will be awarded the winners.

A hot dog stand and confectionery booth will be operated on the grounds.

Following a basket lunch at 12.30 o'clock there will be a girls' softball game commencing at 1.30. At this time there will be a tug-of-war between Clubs. An archery contest will be held from 2.30 to 3.00, and from 3.00 to 4.30 there will be a 22 rifle competition. From 4.30 to 6.00 p.m. there will be a girls' softball game, and at this time a fly and bait casting competition will be held.

After 6.00 p.m. a weiner roast will be held, followed by a sing song and speeches.

Plan to attend this big picnic on July 27th. Last year it was estimated that over 1500 people attended the picnic at the Raven Hatchery, and this year it is expected that the crowd will be even larger.

FORTY YEARS AGO

July 26, 1907

The Bell Telephone Co. has withdrawn its appeal on their town assessment of \$1500, and school assessment of \$1800.

M. Weber received three car loads of lumber this week and work is being rushed on the flour mill.

The C.P.R. has started to make extensive alterations to the depot.

The council held its regular meeting Monday night but the question of grading the town streets was again left in abeyance and it looks as though Didsbury streets will be in a deplorable condition for some time to come.

Grain fed steers were selling for 4c per lb. live weight. Dressed range beef was 5c and dressed hogs 7c per lb. Butter 15c; Eggs 15c; Spring chickens 15c.

UPTON—BAPTIST

A marriage of interest to the district was solemnized at Rumsey, Alberta, at 3.30 p.m. July 6th in the Rumsey United Church, when Annie Constance Adel, daughter of Mr. and Mrs. John Upton of Rumsey, became the bride of Stanley A. Baptist, son of Mrs. E. Baptist of Didsbury. Rev. Hughson performed the ceremony.

The bride, who was given in marriage by her father, wore a floorlength gown of white broadcloth organza with long sleeves. Her long veil was held in place by a coronet of orange blossoms and she carried a bouquet of American Beauty roses.

Miss Florina Upton, sister of the bride, was flower girl and wore a miniature bride's dress. Mrs. Phil Weyland, sister of the bride, as maid of honor, wore a pale blue sheer gown and carried a bouquet of pink carnations. Miss Jean Baptist, the bridesmaid, wore a pale pink sheer gown and carried a bouquet of yellow carnations.

The groomsmen were Alvin C. Baptist of Didsbury and Henry Penner of Sunnyslope.

The ushers were Mr. Albert Upton and Mr. Geo. Smith Jr.

The bride's mother wore a flowered jersey silk with white accessories, and the groom's mother chose a flower jersey with brown accessories.

During the signing of the register Mrs. Brinson played and sang "O Promise Me."

A reception followed on the lawn of the Upton home with 104 guests. The bride and groom were escorted by Mr. and Mrs. Loeche and son of Toronto were among the out of the district guests. There were also 14 guests from Didsbury.

For travelling the bride wore a Loganberry two-piece suit with white accessories. The young couple left for a short honeymoon trip to Calgary and other points, and on returning will reside at Sunnyslope.

Clayton Johnson, who has been operating his electric shop in the building occupied by the Henry Hoth food store, has moved next door to the Premier Meat Market building.

The Pioneer printed a few extra copies of this issue, containing the photos of ten local couples, and these may be obtained by interested readers.

Mayor H. Lynch-Staunton and Councillors C.E. Reiber, H.M. Bowman, Geo. Parsons, Jas. Cathness, R.D. Kimmel and S.J. Gilson were all present at the regular meeting of the Town Council held Monday evening, July 21st.

Two applications for business licenses were received and assented to by Council. One was from Fred Millar for a bakery, confectionery and tobacco business, and the other from Miss Betty Wright for a beauty parlor.

A grant of \$50 was made to the Didsbury Agricultural Society.

The Municipal District of Mountain View asked for suitable lots on which to build a work shop, and Council decided to let them have a desirable building site.

The matter of signs on the highway was discussed and it was decided to put up a suitable sign marking the approach to Didsbury.

Mr. Hadden, of Hadden & Miles, consulting engineers in charge of Didsbury's proposed water and sewage plan, was in town and suggested that a new well be drilled in the west part of town to supply water for the waterworks system.

RUSSELL ADY IS HIGH MAN AT GUN CLUB SHOOT

Holiday time was again responsible for a small attendance at the regular gun club shoot last Tuesday night, but nine enthusiasts were on hand to try their skill at the clay pigeons.

Russell Ady, with 22 out of 25 targets, was high man for the evening and equalled the high score set once the gun club re-organized last year.

Results of last Tuesday's contest were:

Ady 22, Rouleau 18, Bill Ranton 17, A.G. Studer 16, George McDonald 15, Osborne 15, K. McCoy 10, Studer 10, Wrightworth 9.

The gun club now has a good supply of both ammunition and clay pigeons and anyone interested may join the club by paying their 50 cent membership fee.

Paul Brinston of the Kirby Meat Market staff left last Thursday to spend a holiday at Salem, Ore.

KNOX UNITED SENIOR W.A. HONORS MRS. W.G. EVANS

A very delightful afternoon was spent at the home of Mrs. N. Eckel on Thursday, July 17, when the members of the Senior W.A. of Knox United Church entertained at tea. The guest of honor was Mrs. W.G. Evans, whose marriage took place recently.

During the afternoon contests were enjoyed, prizes going to Mrs. E. Kercher and Mrs. N. Clarke. On behalf of the members Mrs. F.W. Leeson presented Mrs. Evans with a gift and expressed good wishes from those present. Mrs. Evans graciously thanked the ladies.

The Didsbury Golf Club Challenge Cup changed hands for the third time this season when Bob Eubank defeated the present holder, Fred Evans, by a narrow margin.

Marking on scores of 38 and 39 on each of the nine holes Eubank turned in a gross score of 77, and with a 4 handicap had a net round of 73. Evans' cards of 41 and 41 gave him a gross of 82, and with a 5 handicap, a net of 74.

AUDREY RADFORD LEADS IN JUBILEE QUEEN CONTEST

MELVIN NEWS NOTES

(Too late for last week)

Mr. and Mrs. I. Lepard and family returned to their Edmonton home after a two weeks holiday with relatives in the district.

Potato crops are coming along pretty well out this way, too. Betty Krebs had new potatoes for dinner last Sunday.

Miss Lois Krebs accompanied a party of young folks to spend the day at Banff last Sunday.

Wednesday's ball game with Olds proved to be quite exciting, being tied up till the eleventh inning. In the last of the eleventh inning Bill Weidner, our first Melvin batter, knocked a home run and so ended the game.

On Sunday afternoon the boys journeyed to Olds where they took the game 10-7.

THIS WEEK'S NEWS

In the ball tournament on Fair Day Melvin was drawn against Bowden. It was a good close game but Melvin lost in the tenth inning.

Mr. and Mrs. A. E. Krebs are holidaying at Vancouver.

Jean Reist has received word that she passed her grade VI piano Conservatory of Music with honors. Congratulations, Jean.

The W.A. meeting was held at the home of Mrs. Ed Kinick last Thursday. Roll call was answered with something about a Canadian Artist. Next month the W.A. will meet at the home of Mrs. Mary Kinick and roll call will be a bird of Alberta, with some interesting facts about it.

Emilie Dupont was among the girls who attended the C.G.I.T. camp at Red Lodge and she reports a really wonderful time.

On Sunday afternoon the Melvin baseball boys played at Crossfield, losing the game 6-5. That is the last scheduled game of the season, but there are two cancelled games which have to be played off sometime, one with Carstairs and one with Olds.

Don't forget the dance in the Melvin hall on Wednesday, July 30. Music by the Merry Makers.

Farmers have been busy having the past couple of weeks and report an excellent crop this year.

Large Crowd Attends The Didsbury Fair And Sports

The forty-second annual Exhibition and sports of the Didsbury Agricultural Society was held on Wednesday, July 16th, and a large crowd turned out to look over the exhibits and enjoy the afternoon of sport.

The grounds were crowded with cars and spectators all during the afternoon and the hard ball and softball games drew large audiences of interested ball fans.

In the first hard ball game between Carstairs and Crenona the Carstairs boys won. In the second game Bowden won from Melvin in a close contest, and in the final game in the evening Carstairs won from Bowden to take first money.

There were four teams entered in the ladies' softball tournament. Bowden, Didsbury, Carstairs and Olds. In the first game Bowden won from Didsbury, and in the second game Olds won from Crenona by default. The final, played in the evening, resulted in an easy win for the Olds team.

Children's races and a bicycle race provided keen competition for the younger folk.

In the 14.2 half-mile horse race Jack Gillrie was first, and Stan Schumaker and Roy Gale tied for second place.

In the mile open running horse race Ken Gillrie came in first. Les Schumaker and George Gillrie tied for second place, and Dorn Gillrie was third.

In the half-mile Shetland pony race Roy Gale was first and J.

Dyck second. The show of Palomino and Kentucky horses was interesting to horse lovers, who were delighted with the fine show of animals.

An interesting feature was the trick horse shown by Miss Alice Epp. The horse was driven to the grounds in a truck, from which it jumped, and Miss Alice Epp then put the horse through its paces. It would lay down to let the rider on and off at will, shake "hands," jump over a bar and finally it jumped back into the truck in its final act.

The display of cattle was considered excellent, with many fine animals being shown in purebred and grade Shorthorns, Jerseys, Holsteins, Herefords, etc. A list of prize winners will be published in the Pioneer at an early date.

Edford Motors had a display of farm machinery on the grounds, and Builders' Hardware displayed a new kerosene refrigerator. It would appear that a farm machinery display at future fairs would be interesting, if dealers would co-operate.

Taking everything into consideration the fair and sports was a complete success this year with entries being at a par with former exhibitions. The crowd was good and the day, while marred by a cool wind, was showered.

To wind up the day a big dance was put on in the Theatre by the Calf Club and a large crowd attended.

WALTHER LEAGUE TO HOLD WEINER ROAST IN AUGUST

A very interesting and well attended Walther League meeting was held on Tuesday, July 15, at the Lutheran Church in Didsbury. The first part of the meeting was devoted to a recording of mission work, and the last part to the showing of a number of very entertaining sound movies. Some forty Leaguers and their friends were in attendance.

The Leaguers also decided to have a weiner roast during the month of August. This is to be held at the "Rocks" on Tuesday, August 5. The Leaguers and friends are to meet at the church and then go out as a group.

OLDS COUNCIL OPENS WATERWORKS TENDERS

Messrs. Hadden and Lawre, engineers of the firm of Hadden and Miles of Calgary were busy all day Wednesday piecing and comparing the tenders received by the town of Olds for the water and sewer installation.

The meeting was unable to complete work on the tenders and until such time as they have been completed, no accurate figures on the cost will be available.

The firms bid on the construction and there were twenty bids on the supplying of the material. As soon as the tenders have been accepted notice will be given by air and press to the public.

The council met again Wednesday evening to further discuss the tenders—Olds Gazette.

THE DIDSBURY EXHIBITION

Once again the Didsbury Exhibition and Sports have proven a success and while entries in some classes were not as numerous as the Directors had expected, nevertheless the quality was good and particularly in the cattle classes many fine animals were shown.

The local exhibition is a show place for the products of our community and if the Didsbury district is to keep pace with the rest of Alberta we must display to one and all our accomplishments in livestock, field crops and other classes which the Agricultural Society directors list in the annual prize list.

The local exhibition is not put on as a money-making proposition, and it is only with the grant from the Department of Agriculture that expenses can be met. For this reason the prize money alone will not induce the farmers and ladies of the district to enter exhibits. They must exhibit for the joy of achievement and to boost the district in which they reside, and if this attitude is taken the Agricultural Society can be assured of successful exhibitions in the years to come.

THOSE FLYING SAUCERS

One of the happiest theories in connection with these flying saucers which have been seen far and wide, is that they may be coming from another world. This has many more important possibilities than the other theory that they are just spots before the eyes caused by too much drinking.

If the flying discs could be established as coming from another civilization—probably hostile—on some other planet, it wouldn't take the world long to tighten up and forget its feuding. Truman, Attlee and Stalin would get together like a flash. The Arab would lie down with the Jew. The strikers would be scared to strike, and the regime of capitalism would find a greater alarm than communism.

Even in High River, a good many things that are now fruitful sources of irritation and disagreement would fade into proper perspective as quite inconsequential. There is nothing that holds people together like a common danger.

So if the flying saucers are spies of an infinitely sensitive and searching nature from some other planet, it will bring us closer to the reality of "one world."

And if we are exterminated en masse by flying weapons from another world, that will at least save our face before our Maker. Left to ourselves we are quite capable of destroying each other in another war, or through the man-created atomic bomb. But if the man from Mars gets after us first, we can leave this world with clean hands. At least we didn't do it ourselves.

The scientists on this earth will take it pretty hard if they find there are smarter, more destructive scientists on other planets. But that too, will give new goals to shoot at, and take their minds off destroying fellow man.

Nobody seems to be taking the flying saucers very seriously, which is just as well. If the world at large responded to every new rumor and every new potential horror, hysteria would reign. It's a great thing to have little daily chores that take up time and thought. Ordinary people know quite well that they are walking a tight rope, but in the meantime there are the chores to be done.—High River Times.

Economical Housewives

There was a day when the housewives bought the far away "bargain" in the belief that it was good business to save a few pennies. But experience taught them a few things. Today's housewives do not buy blindly. They examine the article first and when satisfied with the product they pay a fair price at home. It is economical to make your purchases in

WHO DOES YOUR PRINTING?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them.

Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

NEW RATIONING CONCESSION FOR VISITORS TO BRITAIN

The Ministry of Food have just announced a new rationing concession for overseas visitors to Britain. It is in line with the government's policy of making things as easy and pleasant as possible for Britain's guests during their stay. It will now no longer be necessary for them to procure any ration cards during the first four weeks of their visit if they are staying in an establishment which provides meals. Visitors who do not stay in catering establishments will still need to obtain the usual documents. The procedure is, however, very simple and takes little time. Temporary ration cards are issued by any local Food Office either to the visitors in person or to their representatives on presentation of passports or travel permits.

BATH NIGHT

In a day and age when heating water was a chore, the traditional bath only on a Saturday night was not as bad as it sounds nowadays, admit the health authorities. But they point out, there's no excuse for a mere weekly bath in the modern age when hot water is usually available at a twist of the wrist.

Frequent bathing, says the doctors, does more than ensure cleanliness. It helps tone up the system. As weather is getting warmer, Canadians are advised to make bathing a daily "must" when circumstances permit.

1,000 ENTRIES IN TWO PROVINCES

Figures from Alberta and Manitoba up to late June showed nearly 1,000 entries from the two provinces in this year's \$25,000 National Barley Contest.

At June 18 there had been 462 entries received in Alberta as compared with a total of 391 entries in the 1946 contest. The final date for receiving entries in the whole Western Division is July 15 and it is expected the Alberta list will be considerably increased.

In Manitoba there were 447 entries at June 30. Figures from Saskatchewan up to the end of the month had not been received by the Contest Committee.

The 1946 entries were 507 from Manitoba, 336 from Saskatchewan, and 391 from Alberta.

DON'T RUN OVER MY LITTLE GIRL

With the increased number of motorists on the road during the holiday season, there is naturally increased danger of accidents.

One of the compelling arguments for safe driving and safe thinking is contained in a letter now being distributed by the Safety Council to the hundreds of thousands of motorists throughout western Canada. Written by Phil Brainin in the Tulsa world after he had tucked his little daughter safely into her bed, its stirring appeals should reach the most adroit-headed or careless person entrusted with the responsibility of driving a car. Its title is "Don't Run Over My Little Girl," and it goes like this:

Today my daughter who is seven years old, started off to school as usual. She wore a dark blue dress with a white collar. She had on black shoes and wore blue gloves. Her cocker spaniel, whose name is "Scot", sat on the front porch and whined his canine belief in the folly of education as she waved 'goodbye' and started off to the halls of learning.

Tonight we talked about school. She told me about the girl who sat in front of her - the girl with the yellow curls - and the boy who sits across the aisle and makes funny faces. She told me about her teacher who has eyes in the back of her head - and about the trees in the school yard - and about the big girl who doesn't believe in Santa Claus. We talked about a lot of things - then she studied spelling, reading and arithmetic - and then to bed.

She's back there now in the nursery - sound asleep, with "Princess Elizabeth" (that's a doll) cuddled in her right arm. You guys wouldn't hurt her, would you? You see, in her dream, when her doll is broken or her finger is cut, or her head gets bumped, I can fix it - but when she starts across the street, then she is in your hands.

She's a nice kid. She can run like a deer and dart about like a chipmunk. She likes to ride horses and swim and bike with me on Sunday afternoons. But I can't be with her all of the time - I have to work to pay for her clothes and education. So - please drive slowly past the school and intersections - and remember that children run from behind parked cars.

Please don't run over my little girl.

Phil Brainin
(In the Tulsa World)

SO YOU WANT A NEW CAR?

Writing in the August issue of The Reader's Digest, Don Wharton sums up the new car racket in the United States, in which he says:

"All across the country people are waiting for the car they ordered a year or more ago. The enormous demand for new automobiles and the utterly inadequate supply have led to price-gouging on a scale probably unprecedented in the marketing of any legitimate commodity. The result: Anyone who will pay the price can get delivery of a 1947 make. The black market is \$300 to \$1600 above the list price.

"While automobile manufacturers are not participants in this hold up, their easy going approach is shown by what happened in Detroit, where the auto dealer's association compiled a master list of all new car owners in Wayne County. It took 20 typewritten pages to list individuals who had each received three or more cars. Some got eight.

"The gouging has become so widespread that some honest dealers are advertising that they aren't crooks. One dealer advertised that: (a) He did not sell cars to dealers. (b) Knowingly sold to individuals who buy for resale. (c) Require a trade-in. (d) Require you to purchase any accessories you do not desire. (e) Penalize you by making an unjustified low allowance for the car you trade in."

Mr. Wharton sums up his article by saying: The end of price-gouging could be hastened now by positive action being taken simultaneously by manufacturers, honest dealers and honest buyers. Manufacturers could help by weeding out shady dealers by thorough investigations and speedy cancellations of franchises. They could also advertise in local papers the correct delivery price of at least one of their cars. Honest buyers can also help by reporting all new car dealers attempting shady tricks. The more help the manufacturers get from the public the better they can control dealers. Newspapers could also help by refusing to publish unquestionable want ads by used-car lots."

In Saskatchewan, civil servants may run for political office.

LIVESTOCK FEED SITUATION

Dr. G.H.S. Barton, deputy minister of agriculture for Canada, warns hog producers in Eastern Canada not to liquidate their breeding stock. He said that crop prospects in Western Canada have improved, and some recovery is expected in the East. During the 1946-47 crop year 100 million bushels of feed grain have been moved from the prairies to Eastern Canada. All the bacon that can be produced will be needed, said Dr. Barton, and under the British bacon agreement an advance of \$2 per hundred pounds is in effect beginning September 1.

FIX RATES TO CURB SPEED ON HIGHWAYS

Action has been taken by the provincial government to reduce the rate of speed on highways and reduce accidents, according to officials of the Alberta Motor Association.

Hitherto, there has been no established maximum rate of speed, it being understood that it was to be a reasonable rate having regard to the prevailing circumstances and conditions. This meant that a car could be driven at a faster rate at certain times on the highway than

at other times, depending on the traffic and other factors.

Now the government has established a maximum rate of 50 miles per hour for passenger cars, and buses and all other such vehicles.

For motor trucks, the maximum rate is 40 miles per hour. With

these specified speed maximums in effect as from July 1, the provincial authorities believe that the accident toll in the province resulting from reckless driving will see a marked decrease and that more general observance of safe driving measures will be brought about.

MOST OF US DON'T KNOW

Hardly anyone—not even the publisher—knows how important a newspaper is to a community.

The smaller the town, the more important the newspaper is in its economic life. Its news, editorials and feature stories focus the interest of surrounding territory on the place in which the paper is published.

This force and the force of advertisements by local merchants build an ever-widening trade area. This means more business, more money for schools, homes and churches—a bigger and better town.

A town with a newspaper is a town with a future. The better the paper, the brighter the future.

It deserves the support of every business man in that town.

We are trying to make this paper worthy of our town. Your help and suggestions are appreciated.
